

iPBX Feature List

(iPBX)

⊙ Never miss a call

- Divert calls to another number or Voicemail when you're on the phone or away from your desk. Includes external and mobile numbers, as well as other phones on your network.
- Use Call Forwarding to set other numbers on your network to ring when your phone rings, or twin your phone with your mobile.
- Know when another caller is waiting to get through with Call Waiting, and use Call Park to put a caller on hold while you answer another call.

⊙ Never lose a contact

- Know when you have a message waiting with on-screen pop-ups, SMS text messages and email alerts.
- Respond immediately with Last Number Redial and Click-2- Talk.
- Easily manage all your contact lists with your personal and company Address Books.
- Never forget to make those important calls – use Events Diary to set reminders against your Address Book entries.

⊙ Don't feel tied to your desk

- Forward your calls to any internal phone, your mobile or external phone.
- Access Voicemail from any internal phone, your mobile or external phone, or on-line.
- Access your contacts from anywhere with your on-line Address Book.
- Let the whole team know with messages on shared Voicemail.

⊙ Promote your company image

- Help your customers' calls get through with Call Groups.
- Let your callers know they're connected with Music on Hold.
- Route your callers to the right people with Auto Attendant (Gold package option).
- Perfect and review your telephone responses with Call Recording (Gold package option).

⊙ Work efficiently

- Have all your internal and external numbers quickly to hand with Address Book – see who's calling and Click-2-Talk straight from your contacts.
- See when colleagues are free to take a call with Line Monitoring, and transfer calls to any internal or external number easily.
- Quick dial Short Codes for your everyday numbers.
- Protect your precious time with Do Not Disturb and Block Anonymous Calls.
- Bring a colleague in on a phone conversation with Three- way Call and forward important Voicemail messages easily to handsets or emails.
- Access your Fax messages on-line or by email.

⊙ Work securely

- Set passwords and pin numbers to secure your phones, voicemail and web-portal from unauthorised access.
- Set external or mobile Failover numbers to keep your communications open in the event of a power-cut, or local network failure.

⊙ You're always in control

The powerful administrative features make managing the phone network and monitoring costs and performance a quick and easy job:

- Update, add or remove users.
- Set up Call Groups, shared Voicemail boxes and Music on Hold.
- Create a shared company Address Book and an automatic internal telephone directory.
- Track and bar unauthorised calls.
- Block unwanted calls.
- Monitor your phones account and company Calls History, and create automatic Company Reports.

iPBX Features

ITB's iPBX product is packed with clever features to help you make the most of your daily business communications.

You can easily configure preferences both for individual phones and for their phone network through your iPBX web portal. You can also set many of the most common features direct from the handsets.
